PRELIMINARY AMENDMENT

Please cancel claims 1 – 15.

Please add the following claims:

Claim 19(New) A method for providing medical assistance to a person carrying a medical emergency device capable of placing a wireless telephone call, said method comprising the steps of:

- receiving a wireless call from the medical emergency device;
- associating said received call with a certain person;
- retrieving medical information of said person;
- identifying certain signal information associated with said wireless call;
- using said certain identified signal information to locate said certain person; and
- sending said location of said certain person and said retrieved medical information to a
